

Complaint

I'm 43 Team, A'ROW N4121 Pilot from Hungary,

First flight Task 4, Task 5 is No Result

Because of only the training mode was recorded by
while device. I would like provide the igc file
recorded by my device for point calculation.

I hope you can accept ~~it~~ it.

Thank you in advance

Reply to complaint

By competitor #43, Aron Nyiri

On task #4 & #5

I have reviewed your complaint and come to the following conclusions:

1. The rule 6.4.1 states that *Reported malfunctions are considered failures only when they can be reproduced after flight. When a failure is found, the officials may ask the competitor to provide his GPS equipment to substitute the missing track information.*
I can therefore only accept another recording if there was a failure.
2. Furthermore, 6.4.3 states *An electronic mark recorded by a competitor's GPS-equipment can only be used if the equipment has been approved by the Director before the flight or specific rules under Section II have been followed.*
3. Additionally, as to my understanding, and you have confirmed this in our discussion, the Balloon Live system showed no malfunctions, but you simply forgot to configure it correctly, i.e. switching it to "competition mode" as defined in rule II.18. b).
4. Finally, you were reminded multiple times, during the General briefing and the first task briefing, that your system was not properly configured. Scoring officials were at your disposal to help with the configuration, but you did not react to the offer until after the first flight.

Following all points above, I am not able to accept any other recordings for flight 1 and your scores will remain as published.

Respectfully,

Claude Weber
Event Director
