be applied

absolutely clear on to how penalty for this should  
Rule 12.3.7 can lead to a ~~statement~~ completely in ~~absolute~~

stated.

There was no defined boundary or absolute altitude

You argue in your reply that ~~the area that~~ <sup>decreased in size</sup> / ~~was~~ out of bounds / ~~with~~ <sup>was</sup> ~~outside~~ a <sup>boundary</sup> ~~boundary~~

to rule 12.3.7 with a distance in general - you do not

altitude limitation and should be penalised according  
I failed under 12.3.7 to meet a distance / latitude

Part C for goal declaration ~~was~~ <sup>was</sup> I actually defined a valid goal - goal - goal coordinate and region were declared

At no stage was any of the airspace declared out of bounds  
I am not sure that area ~~was~~ <sup>inside</sup> would be out of bounds

You have reported the argument for ~~the~~ <sup>the</sup> ~~task~~ <sup>statement</sup>  
address the complaint. There can be no physical ~~statement~~  
Thank you for your response. Sadly the reply does not
