Subject: Protest

I will respectfully ask for a Jury review and Protest this response. It is clear to me that this was an ambiguous 'description of areas'.

The declared goal further defines a 4X4 intersection north of 8600. Any 4X4 intersects with another 4X4 and I had a valid declaration per the task data provided prior the flight.

I can provide the \$100 at the morning briefing at 0545.

Nick Donner
Competitor #25
